This project was supported by a grant awarded by the Office of Juvenile Justice and Delinquency Prevention, Office of Justice Programs, U.S. Department of Justice. Points of view or opinions in this document are those of the author and do not necessarily represent the official position or policies of the U.S. Department of Justice.

Scope

This bibliography lists publications related to child maltreatment issues authored by David Finkelhor. Dr. Finkelhor is Director of the Crimes Against Children Research Center and Co-Director of the Family Research Laboratory, and is Professor of Sociology at the University of New Hampshire. He has been studying the problems of child victimization, child maltreatment and family violence since 1977. His publications are among the most influential in areas related to child abuse and neglect. This collection is not complete; even so, it currently contains more than 100 publications. They are arranged here in reverse chronological order – the most recent publications appearing first. It should be noted, however, that some of his older publications are landmarks in the field and retain their influence even after decades in print.

Organization

Publications include books, book chapters, reports, research briefs, and articles and are listed in date descending order. Links are provided to full text publications when possible. However, this collection may not be complete. More information can be obtained in the Child Abuse Library Online and the University of New Hampshire's Crimes against Children Research Center. <https://cola.unh.edu/person/david-finkelhor>

Disclaimer

This bibliography was prepared by the Digital Information Librarians of the National Children's Advocacy Center (NCAC) for the purpose of research and education, and for the convenience of our readers. The NCAC is not responsible for the availability or content of cited resources. The NCAC does not endorse, warrant or guarantee the information, products, or services described or offered by the authors or organizations whose publications are cited in this bibliography. The NCAC does not warrant or assume any legal liability or responsibility for the accuracy, completeness, or usefulness of any information, apparatus, product, or process disclosed in documents cited here. Points of view presented in cited resources are those of the authors, and do not necessarily coincide with those of the NCAC.
