This project was supported by a grant awarded by the Office of Juvenile Justice and Delinquency Prevention, Office of Justice Programs, U.S. Department of Justice. Points of view or opinions in this document are those of the author and do not necessarily represent the official position or policies of the U.S. Department of Justice.

## Scope

Michael E. Lamb is Emeritus Professor of Psychology and former Head of the then Department of Social and Developmental Psychology at the University of Cambridge. He received his Ph.D. from Yale University in 1976. He is known for his influential work in developmental psychology, child and family policy, social welfare, and law. His research focuses on forensic interviewing and the factors affecting children’s adjustment and he and his colleagues have shown how developmentally sensitive interviewing improves the amount and quality of information obtained from young victims, witnesses and offenders in investigative settings, developing and validating the NICHD Protocol in a series of studies that began in 1990. He currently edits the journal, *Psychology, Public Policy, and Law*.

## Organization

Publications include articles, book chapters, reports, and research briefs and are listed in date descending order, divided into the three sections listed below. Links are provided to full text publications. However, this collection may not be complete. More information can be obtained in CALiO™, the Child Abuse Library Online and at <https://www.repository.cam.ac.uk/search?spc.page=1&query=michael%20lamb>

Forensic Interviewing of Children and Child Witness Research.....	5
Child Development Research.....	35
Other.....	96
