Collection: A Bibliography.

This project was supported by a grant awarded by the Office of Juvenile Justice
and Delinquency Prevention, Office of Justice Programs, U.S. Department of
Justice. Points of view or opinions in this document are those of the author and
do not necessarily represent the official position or policies of the U.S.
Department of Justice

Scope

This bibliography lists publications related to child maltreatment issues authored by Dr. Henry Otgaar of the Netherlands. Dr. Otgaar works as a research professor at the Leuven Institute of Criminology (KU Leuven) and as a professor of Legal Psychology at the section Forensic Psychology, Maastricht University. His research concentrates on developmental changes in memory from childhood to adulthood and factors that relate to the development of memory illusions. He is frequently involved as an expert witness in legal cases concerning the reliability of eyewitness testimonies, especially those involving child witnesses. Current studies focus on precursors of children's and adults' false memories, adaptive memory, delayed disclosure of sexual abuse, and interviewing children.

Organization

Publications include articles, book chapters, reports, and research briefs and are listed in date descending order. Links are provided to full text publications when possible. However, this collection may not be complete. More information can be obtained in the Child Abuse Library Online and at [Dr. Otgaar's Google Scholar profile](#).

Disclaimer

This bibliography was prepared by the Digital Information Librarians of the National Children's Advocacy Center (NCAC) for the purpose of research and education, and for the convenience of our readers. The NCAC is not responsible for the availability or content of cited resources. The NCAC does not endorse, warrant or guarantee the information, products, or services described or offered by the authors or organizations whose publications are cited in this bibliography. The NCAC does not warrant or assume any legal liability or responsibility for the accuracy, completeness, or usefulness of any information, apparatus, product, or process disclosed in documents cited here. Points of view presented in cited resources are those of the authors, and do not necessarily coincide with those of the NCAC.
